

A NEW Specialized Nurse Practitioner (SNP) CLINIC: Everything You Need to Know

► What is the Specialized Nurse Practitioner (SNP) Clinic?

The SNP clinic offers complementary front-line services, providing additional support to referred patients. **It supplements existing services.**

► Target clientele

Services are available **upon referral** to people of all ages **without a family physician** who require:

- preventive and health promotion care;
- care for common or chronic health problems;
- care to manage minor emergencies, in collaboration with the Home Care Services Department (SAD);
- proximity care and community interventions in collaboration with local organizations, particularly for vulnerable clienteles, including people who have recently arrived, people experiencing homelessness, people without a health insurance card, and members of Indigenous communities.

► How to access these services

Currently services are available **by referral only**. Patients **without a family physician** can be directed to the SNP clinic via:

- **Redirection from the Emergency Department:** healthcare Professionals can direct P4 and P5 patients without a family physician to the clinic using the Québec Medical Appointment Scheduler;
- **The GAP service:** for certain users without a family physician;
- **Internal referrals:** Caseworkers with the various CIUSSS departments can refer individuals without a family physician using existing patient trajectories.

► Opening date

The opening, which **will be progressive**, is scheduled for Monday **February 2, 2026**, at the **CLSC de Pierrefonds**.

► **Services available**

- Monitoring development of children aged 0 to 5 years old
- Monitoring of chronic conditions
- Women's health
- Pregnancy care
- Home care
- Community care
- Prescription renewals

► **How patients or users
