

NEW

SYSTÈME D'INFORMATION de laboratoire provincial

To be gradually rolled out across our CIUSSS

OBJECTIVES

- Improve the efficiency of laboratory medicine in Québec.
- Allow the entire trajectory of a sample to be tracked, process tests more quickly, and improve the transmission of results.
- Simplify inter-institutional analyses and sharing of laboratory test results with healthcare professionals and users.

Users TRAINING

It is important to follow **RIGHT NOW** the ENA training course (procedure on back page).

SoftwebPlus ACCESS CODE

Upon completing the course, users will receive an access code for the new platform, allowing them to start practicing in a test environment
